

IntimateTales Couples Interaction Plugin Configuration Guide

The IntimateTales Couples Interaction Plugin offers seamless integration of collaborative features for couples. It fosters shared experiences and collaborative decision-making.

Joint Participation

Couples can participate in shared activities and experiences within the IntimateTales platform.

Collaborative Decision-making

The Couples Interaction Plugin enhances collaborative decision-making by providing options for couples to make joint choices within interactive storylines.

Integration with Other Modules

Ensure compatibility and integration with other IntimateTales modules for a holistic and unified user journey.

For more detailed information on joint participation, collaborative decision-making, and integration, refer to the official documentation.
